333 scaffolding, and string to line up the walls. Perhaps a dozen men do masonry, mostly as a secondary occupation. Work is usually charged for on the basis of square meters of wall.

● 305 *Barbers.*—Most men in Cherán now have their hair cut by a barber. There are two barbers in town regularly, and more come to town during fiestas. The Cherán barbers also visit nearby towns during fiestas. During the middle of the week they have little trade.

Formerly men cut each other's hair for nothing in the bull ring on Sundays, using only scissors. The barbers have clippers as well and also razors for shaving, although there is not much demand for the latter. One barber is not a native; the other learned the trade in the United States.

312 482 462 *Water carriers.*—In most households the women bring the water from the fountain or aqueduct in ollas carried on their shoulders. However, for any commercial use (*nixtamal* mill, masonry, the threshing machine) water is carried by men. In addition, there is one man who makes his living carrying water for storekeepers, whose wives may be too busy helping in the store, and for a few families who are somewhat Mestizoized and the husband has decided the work is too hard for the women.

Interestingly enough, the men's method of water carrying is entirely different from that of the women. Men carry water in two 5-gallon cans suspended from the two ends of a pole which is supported on the shoulder. This rigid dichotomy is observed even in families where one of the men or boys brings the bulk of the water. If the women need to bring additional water, they always use ollas and make several trips.

FOOD PROCESSING AND DIET

128 Consideration of food processing in this section is confined primarily to household activities. Commercial processing of food for sale, such as baking, butchering, and ice cream making, will be considered later.

251 The storage of food is confined primarily to maize, wheat, beans, and broadbeans (*habas*). Except for small supplies for immediate use, stores are kept in the house, usually in the loft. Maize is stored on the cob. Wheat, beans, and similar seeds are stored in gunny sacks or in

The blocks are shipped in trucks to Uruapan, where they are split to make crates for shipping fruit. No data on costs or sales were secured on this minor business.

338 434 *Painters, plasterers:*

Daily wage $1.75–2.50

Comment: Painters and plasterers have only occasional demands for their skills. Only a few stone or adobe houses are plastered, and fewer still are painted. Most jobs are by contract.

Equipment	$1,500–$1,700
